

All Saints CE (VC) First School and Busy Bee Pre-School

"Caring, Succeeding, Flourishing – Whilst carrying our values in our HEARTS"

"I can do all things through Christ who gives me strength." (Philippians 4:13)

Curriculum Statement

At All Saints CE (VC) First School & Busy Bees Pre-School, our curriculum is rooted in our Christian ethos and guided by our school vision: **Caring, Succeeding, Flourishing**. We aim to nurture children who carry our values in their **HEARTS**—Hope, Endurance, Acceptance, Reverence, Thankfulness, and Service—developing spiritually, socially, and academically in a safe and stimulating environment.

Curriculum Intent

We believe that the personal development of pupils—spiritually, morally, socially, and culturally—is central to their ability to learn and thrive. Our curriculum is designed to be broad, balanced, and reflective of our school's unique context. It is driven by thought-provoking learning questions that inspire curiosity, independence, and resilience.

Children are encouraged to explore their beliefs, develop spiritual awareness, and appreciate the diversity of the world around them. Our Christian values and school vision underpin every aspect of learning, helping children to grow into confident, compassionate individuals who flourish in all areas of life.

Curriculum Implementation

Our curriculum is delivered through **standalone subject areas**, taught across **half-termly units** to ensure depth and breadth of knowledge. This approach allows children to fully engage with each subject, building strong foundations and making meaningful connections across disciplines.

Strategic planning ensures that learning is responsive to pupil needs and builds on prior knowledge. Our feedback policy promotes reflection and encourages children to consider links between subjects. Enrichment opportunities—including clubs and activities before, during, and after school—further enhance learning and support personal development.

Curriculum Impact

We use rigorous monitoring throughout the year to evaluate the effectiveness of our curriculum. Subject leaders and link governors review learning, gather pupil voice, and provide feedback to celebrate success and drive improvement.

Impact is measured not only through national assessment outcomes but also by how well our curriculum supports the development of well-rounded individuals. Our pupils leave All Saints equipped with the knowledge, skills, and values to be lifelong learners and thoughtful, caring citizens—living out our vision of **Caring, Succeeding, Flourishing**.
